

NuAngel Colors

Available in the following:

For NuAngel products available in white or natural (unbleached) cotton as noted in product descriptions use color codes 99 White and 98 Natural.

Note: Actual color may vary slightly from swatches shown. Colors are subject to change.

Ordering Information: NuAngel accepts all major credit cards. Purchase Orders are accepted upon approval. Shipping and handling will be added to each order.

Return Policy: Due to the nature of NuAngel personal care items, we do not accept returns of used products. Opened products can only be returned due to manufacturing defects within 30 days of the date of receipt.

Welcome to NuAngel

NuAngel, Inc., a woman-owned business, is a U.S. manufacturer of quality products for mothers and infants. “Nu” in NuAngel represents the words “Nursing”, “Nutrition”, and “New”. “Angel” represents the belief that infants are precious angels and are the most valuable gifts their parents will ever receive.

NuAngel was founded by Teresa P. Carroll in 1990 with a children’s book, Mommy Breastfeeds Our Baby. When purchasing breastfeeding products for the State of Alabama as the State Lactation Consultant, Teresa realized the need for quality breastfeeding products at a reasonable price. In 1992, NuAngel began manufacturing white 100% cotton washable nursing pads for health departments and hospitals to meet this need. Later, NuAngel began private labeling and providing products to the retail market. The NuAngel product line has grown to include many products for nursing mothers, infants and beyond. The line includes award-winning, patented, and patent pending products.

Teresa Carroll states, “We support breastfeeding and infant care by providing a product line that supports the role of fathers and nursing mothers as they participate in this incredible experience called parenting. We are committed to helping promote, protect and support breastfeeding and infant care across the nation and around the world.” As a Registered Dietitian, International Board Certified Lactation Consultant and three-time nursing mother, Teresa recognizes the importance of product support during these critical times in the lives of parents and children.

NuAngel products are cut, sewn, and packaged at our U.S. manufacturing facility in Athens, Alabama. This allows us to carefully control the quality of our product line. It also allows for short delivery times, flexibility in packaging, and shipping according to customer needs. NuAngel is committed to providing top-quality products at a reasonable price. Our goal is to continue to grow while supporting the U.S. economy by providing jobs for U.S. textile workers and utilizing U.S. resources.
